MÖBELFAKTA

The chair that is inherently uncomplicated - and complex at the same time. Atrium is the result after several years of development; a well-thought-out combination of design and functionality.

Atrium is created for big occasions and the small moments. Color the room and stack the chairs when the music is turned off. Take a breath and hang the chair on the table when the meal is over and the crumbs are the only ones sitting at the table. The possibilities are almost endless.

The Atrium is easily adapted by using it as a basic veneer chair, with a fixed seat cushion, or maybe even a fixed back cushion, unless you choose with an upholstered seat and/or back. Choose with or without the armrest before choosing which of the five bases that best suits your needs.

- ★ **A chair series with a split seat and back in wood veneer with five different bases.**
- ★ **An unpretentious chair with a distinct character that can easily be adapted to any environment.**
- ★ **Wide range of alternative fittings; color combinations, upholstery options and bases.**
