

Senso

Senso

**Senso is designed by
Anderssen & Voll for
Fora Form**

Senso sofa system was designed by the design duo Anderssen & Voll. The idea behind the design is a modular sofa system that is flexible, narrow and appeals to informal meetings between people. Senso sofa system takes into account the acoustic challenges you encounter in office environments.

Senso is designed to enable and inhibit interaction and letting the space decide how what interaction you desire. From work zones that require quiet reflection and working alone to building bigger set ups specifically for great conversations.

The module system stands out in that it is very narrow and offers a large number of modules that provide opportunities for creative solutions. The seat height ensures requirements for universal design met.

Senso is available with a 10 mm cleaning gap between seat and backrest. This is called Senso Café.

In collaboration with Gudbrandsdalen Uldvarefabrikk, we now introduce Senso Patchwork. Finished setups, with finished moodboards, so you can easily create exciting environments. Different colors and different textures provide harmonies in a playful setting.

[Read more about Senso Patchwork here.](#)

Technical information:

- Seat with steel frame, Nozag springs and cold cured foam. Backrest in plywood with moulded foam.
- Senso Café has a 10 mm cleaning gap between seat and backrest, unchanged outer dimensions. Works on all modules except SH 65 cm and module with wooden table.
- Can be supplied with double electric European socket for ottoman with 3 m. black cord.
- Base in polished aluminium, black or white epoxy. Several RAL colours on request.
- Senso also comes with oak base in different surfaces.
- Felt gliders.

- ★ **Senso can be configured enable or inhibit interaction - you decide.**
- ★ **Senso is very narrow and offers a large number of modules that provide opportunities for creative solutions**
