

Up

Up

**Up is designed by
KnudsenBergHindenes
for Fora Form**

Up sofa system was designed by the design trio Knudsen, Berg and Hindenes. The idea was to purposefully design a modular sofa system to facilitate communication.

The solid construction invites you to sit on the seatback and can be placed in the middle of the room. The backrest is perfectly tilted as arm and lumbar support which gives the user a friendly body language that invites dialogue. These two functions make the sofa great for breakout areas for informal communication.

The modular system can easily be adapted to different configurations in form, textures, and color combinations.

★ **The solid construction invites you to sit on the back of the sofa**

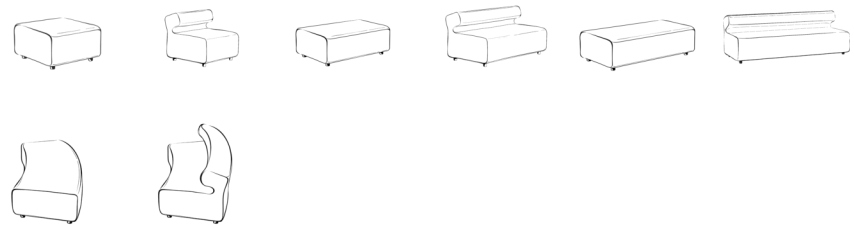

★ **The modular system can easily be adapted to different configurations**

★ **The angle of the back is designed to improve body posture**
