

# Ibis

# Ibis

Ibis is the only seat that can be mounted in a telescopic tribune with step height to 20 cm.

## Technical information:

- It can be equipped with a gas lift which makes it semi-automatic. This, together with the fact that the chairs are low in space, make it a very usable chair.
- Can be mounted on steps or riser, on fixed or telescopic stand.
- The back and seat can be upholstered with fabric, or with wooden panels on the back and under the seat. These can also be perforated for acoustics.
- Armrest in wood or upholstered.
- Available with writing tablet attached to the armrest, easy to tilt forward and fold back.
